POLICY POSITIONS

Encourages deregulation and less focus on clean energy

- Accused the federal government of "causing delays" in the approval of energy projects, increasing gas and energy prices for North Dakotans; would support removing EPA regulations on oil, natural gas, and coal; criticized President Biden's plan to have zero carbon emissions by 2035 as "impossible" given the state of energy technology; would increase funding for oil pipelines and transmission grids

Supports a federal ban on abortions

- Supports a "nationwide floor" on abortions beginning at 15 or 16 weeks after pregnancy; believes that any further restrictions are for the states to decide
